

Project Sheet

Air Starting System for Genset

Domain	Oil & Gas
Application	Oil Field
Location	Oman
Equipment	Emergency Diesel Generator
Engine	3200 kW
Starting System	Dual Starting
Quantity	3

Features

- 6 x 7sec cranking cycles capable
- SS316 piping, fittings and instrumentation
- 1500L ASME 'U' stamped air receivers
- Diesel engine driven compressors for 50°C
- Automatic operation of the compressors
- Ni-Cd starting batteries
- ATEX certified pressure transmitter
- Weather-proof canopy and heavy duty filters
- Material selected from approved vendor list
- Anticorrosion painting 250µm
- Easy operation and maintenance
- 3.1 material certificates for skids and receivers
