

# Project Sheet

## Containerized Air Starting System

Domain	Energy
Application	Offshore Platform
Location	Middle East
Equipment	Emergency Standby Genset
Engine	3000KVA
Starting System	Dual source
Quantity	2 units

### Features

- 6 starting attempts capable
- 2x 700L horizontal air receivers
- GALI make S30 air starter kit
- GALI make air shut-off valves kit
- SS316 piping and fittings
- PED/CE and ASME certified air receivers
- Offshore and ATEX suitable instrumentation
- Local control panel for automatic operation
- Offshore painting (anti-corrosion)
- Fully integrated skid packaged inside 10' container
- Controlled air ventilation
- 1 electric driven compressor 30bar 65m3/h
- 1 diesel driven compressor 30bar 65m3/h
